End of Manufacturing Notice

At Exacq we are committed to innovation and to providing high-quality products to our customers. As products reach the end of their lifecycle, we look forward to providing new solutions in the marketplace. Exacq is pleased to announce that we will be updating our A-Series and Q-Series systems in the coming months. These new generation systems will continue to be an easy-to-use video recording solution pre-loaded with exacqVision VMS, but with a boost to performance from newer generation components.

To prepare for the newest innovation in our hardware, the exacqVision **A-Series 48-Channel 4U Hybrid Recorder** will no longer be manufactured, effective February 15th, 2022. This product will continue to be fully supported through its warranty period, including software updates. The **A-Series 48-Channel 4U Hybrid Recorder** will be available for sale while supplies last.
